satelliteindustries.com

“Made with 33% fewer parts and ultra-smooth walls, the Maxim 3000 costs less to maintain.”

**Portable restrooms
preserve and protect
our natural resources.**

With no ledges to collect dust, debris or waste the Maxim 3000 is easy to clean and stays clean longer than any other restroom. It has two powerful springs which hold the door shut, preventing unwanted dirt from blowing into the cabana and the tank has been contoured to create a more natural sitting position for end users. All in all, end users find the Maxim 3000 to be a spacious, attractive restroom with an overall clean appearance.

Double Walled Construction For Exceptional Strength and Durability

The Maxim 3000 is the only fully blow-molded restroom on the market, which produces a two-ply, cross-ribbed wall panel that is virtually indestructible and a double-walled roof, made to withstand the weight of heavy snow and ice. Blow molding also eliminates over one third of the parts found on a typical portable restroom, dramatically reducing repair costs and parts inventory. There are many other features, such as the heavy-duty, vandal proof door springs, full corner hand grips and cascading, molded-in wall vents that cause Maxim 3000 to be the least expensive restroom to own and operate.

✓ features

Outlet/Inlet port and optional drain plug make the Maxim 3000 easy to drain, refill and vacuum out fresh water from the same location.

Exclusive blow molding technology produces smooth walls inside and out. Cross ribbing between walls provides unbeatable strength and stability.

Two heavy duty door springs provide a vandal proof system that holds the door tightly in place.

Standard

The interior has ultra-smooth walls for easy cleaning and a hover tank that allows you to use the toilet without sitting down.

Luxury Flush & Wash

The Maxim 3000 Luxury Flush & Wash has all the amenities, including a convenient foot-pump wash station, mirror and shelf.

colors

Blue, Granite, Green, Sand, Teal
