satelliteindustries.com

“Top to bottom,
the Global has
more unique
features than
any restroom at
a similar price.”

**Portable restrooms
save 125,000,000
gallons of water
every day.**

Developed as an entry level restroom, the Global still provides end users a rich assortment of unique benefits. The patented Dirt Buster base with its open grid floor design allows three times as much fresh air to circulate throughout the restroom. In addition, users have a convenient corner shelf, an extra roll of toilet paper and a large door latch that can be operated with the elbow rather than by hand to help prevent the spread of germs. It costs less, but provides end users a quality experience.

More standard features for your dollar.

✓ features

Convenient corner shelf molded around vent pipe

Color-matched urinal reduces visual clutter

Capped roof with rivets provides extra strength

With a lower initial investment operators might believe quality could be an issue. The fact is Global restrooms have a sturdy framework featuring an incredibly strong, one-piece continuous door frame. The door itself has a five point integral hinge that eliminates door sag and comes with an exclusive lifetime warranty on the spring, door latch and hinge pin. Add six distinct color choices and the Global becomes an even more attractive choice.

The **Dirtbuster™** Base

- Open grid allows up to three times more airflow than standard restrooms.
- Dirt and mud fall through grid instead of collecting on floor.

■ colors

Blue, Sand, Gray, Red, Forest Green, Yellow.
