

Satellite Suites™

6X10' ADA 1 STATION

The single station ADA by Satellite Suites is the ideal for events requesting only restroom trailers. It is a stylish, cost effective add-on trailer that is user and operator friendly.

The beauty of this restroom is how quickly it can be set-up and taken down, while offering end-users easy entrance and a spacious, roomy interior. During set-up, the stub axel wheels are disengaged and by use of three electric jacks operated by remote control, the trailer is lowered into a stable, level position. Once the trailer is on the ground, simply lower the attached platform, snap on the six-foot ramp, slide in the handrails and set-up is complete. The ramp has a very slight angle and the platform provides plenty of room for navigating and opening the door.
