

Satellite Suites™

8X26' ROUGHNECK TRAILER

Satellite Suites has created a beautiful 26-foot, two-door, 15-station trailer for high traffic rural events, construction sites, and oil field operations. The Roughneck uses our portable restroom urinals and tanks, eliminating the need for running water and cutting down the amount of time between services. The women's restroom has six private stalls and the men's has three private stalls and two urinal troughs allowing for easy flow on jobsite or at an event. This restroom trailer has air conditioning, lighting and is equivalent to about 15 portable toilets. For comfort, the Roughneck offers basic climate control with a single rooftop AC and electric forced air heaters.
