

# TANK DEODORIZER

# TURBO DRIPAX™ PACKETS

## WHY TURBO DRIPAX?

Turbo DriPax deodorizer packets have the power of liquids and none of the mess. Simply drop the water soluble packet into the water and the effervescent action will do the rest!

Turbo DriPax packets are available in two strengths, 2nd and 3rd Gear. DriPax's are 100% biodegradable and environmentally friendly and the paper sleeve prevents packets from sticking together when wet.

For Moderate-High temperatures, Turbo DriPax 2nd Gear packets take care of unwanted odors. For extreme temperatures, use Turbo DriPax 3rd Gear. Both 2nd and 3rd Gear Turbo DriPax have increased fragrance to control odors and a deep royal blue dye.
