

QUATERNARY SANITIZER/DISINFECTANT

# ENVIRO BAC 2

HOSPITAL GRADE

## WHY ENVIRO BAC 2?

According to the Centers for Disease Control and Prevention, in the past 20 years, drug-resistant viruses and bacteria have become more and more commonplace.

Enviro Bac 2 is a **hospital grade**, EPA registered disinfectant. It's a high quality, high dilution, moderate foaming 10% quaternary sanitizer/disinfectant and effective mildewstat. It is intended to be used in dairy, hospital, institutional, wine, food, poultry, and meat plant operations.

### BENEFITS

- Disinfectant gets in between the tank and walls; neutralizes bacteria.
- Stops mold from growing in the roof.
- Leaves a film that protects from graffiti (eases removal) and from spider inhabitation.

### HOW TO APPLY

- Use low pressure adjustable chemical injection system to apply Enviro Bac 2 evenly. The **Pathfinder** is a unique low pressure delivery system that proportions the chemical/water mix for maximum effectiveness.
- Cannot use be used with a high pressure washer

### DIRECTIONS

- Used at 1 oz per 4 gallons water (200 ppm) for sanitizing equipment, deodorizing many areas in and around the plant, or 4 oz per 5 gallons for disinfection or environmental surface sanitation, and shoe baths. No potable water rinse is necessary at 1 oz/4 gallon use rate.

## PRODUCT DETAILS

Kills some viruses: Influenza A and Human Coronavirus

Disinfects areas a brush cannot reach

56% greater reduction in bacteria

132% greater reduction in mold

Consistent cleaning results

Kills some fungi

Shines surfaces

Sanitizer

Mildewstat

High Dilution

### QUANTITIES

5 Gallon

55 Gallon

275 Gallon

One-step disinfectant that is effective against a broad spectrum of bacteria that inhibits the growth of mold and mildew and their odors when used as directed.
