

STATE - OF - THE - ART SANITIZING SYSTEM

PATHFINDER

WHY PATHFINDER?

The **Pathfinder** is a state-of-the-art sanitizing system that mounts to any service vehicle. It has a unique low pressure, chemical injection delivery system that proportions the chemical/water mix for maximum effectiveness. This system allows you to spray a hospital grade, EPA registered disinfectant like **Enviro Bac 2** evenly throughout the restroom.

This sanitizing system reduces mold and odor causing bacteria by a staggering 86% over traditional cleaning methods. The benefit of our system over the traditional “scrub brush and soap” method is that we are not transferring bacteria and germs from one unit to another.

Everyone will appreciate the fresh, clean appearance of your restroom even more, knowing it has been thoroughly disinfected and sanitized with each service.

PRODUCT DETAILS

A self-contained unit that can be applied to any truck in the field

Satellite truck model specific kits are also available

Selection nozzle to switch from high to low pressure for the chemical application

Floject washdown pump for low pressure
(50 psi @ 4.5 gallon/minute)

CAT high pressure pump (1000 psi @ 2.5 gallon/minute)

Disinfects areas a brush cannot reach

Consistent cleaning results

Shines surfaces

INTENDED USES

Portable Restrooms

Handwash Sinks

Restroom Trailers

Shower Trailers

Holding tanks
