

FRESH WATER DELIVERY SYSTEM

Satellite's Fresh Water Delivery System is a staple in the on-site water delivery. Our system is specifically designed for use with office trailer toilets or permanently installed sink fixtures. We offer this fresh water system in both 60 and 275-gallon sizes.

**For non-potable water.*

CONTAINMENT TRAY

Durable tray to catch washdown. Built strong for continual use, Satellite's containment tray has a thickened base to hold its shape, last longer and fit all standard-size restroom bases.

CONTAINMENT SYSTEM

With increasing regulations for waste tanks and external storage tanks, Satellite has developed a 250-gallon Holding Tank Containment System designed to prevent contamination due to failure or overflow. Direct port connections allow the service technician to service the tank without removing the lid.

**Satellite Five Peaks tank does not fit in the containment system.*

PIONEER CONTAINMENT TRAY

Satellite's Pioneer Containment Tray is built to fit on the Pioneer trailers. The tray is built with high-density plastic to withstand the road travel and trailer flex. Satellite's Pioneer Containment Tray catches washdown and fits all standard-size restroom bases.
