

TUFWAY

A unique combination of durability and comfort is why operators and end-users have made Tufway the most used restroom in the world. By design, the Tufway interior is built for user comfort. It has a spacious, well-ventilated interior to reduce odors due to simple, yet important features. A combination of floor and molded-in wall vents facilitate continuous air flow. The urinal drains down the vent pipe, which prevents unwanted tank odors from venting back into the cabana. The seat is positioned at the furthest point from the urinal, away from odor and user's direct sight. There is also a convenient door hook to hang a purse or jacket. Together, these features produce a more comfortable, pleasant experience for the end-user.
