

DEMANDING, HIGH CAPACITY ROUTES

# MAL 2150

Aluminum Cabinet  
Driver Side

Freshwater Hose

Lowered Workstation  
Driver Side

## 1600 GALLON WASTE / 550 GALLON FRESH

The MAL 2150 is designed specifically for demanding, high-capacity routes. Lightweight ASTM 5454 aluminum construction combined with a 25,999 GVW or heavier chassis gives the 2150 an incredible 1600-gallon waste capacity and 550-gallons of freshwater. Large dual cabinets provide plenty of storage, and the lowered workstation provides an efficient ergonomic service area even for smaller-stature drivers. A full range of vacuum and washdown systems can be custom tailored to fit your specific application.

- **LIGHTWEIGHT ALUMINUM UNIT HAULER:** This feature provides safe and secure points for transporting standard portable toilets, and the aluminum construction reduces effort for loading and unloading.
