

HIGH-DENSITY CITY ROUTES

MD 1600

1100 GALLON WASTE / 500 GALLON FRESH

The 1600 is the ideal size for high-density city routes. Large dual cabinets provide plenty of storage, and the lowered workstation provides an efficient ergonomic service area even for smaller-stature drivers. A full range of vacuum and washdown systems can be custom-tailored to fit your specific application. A unique baffle design is integrated into the tank that provides greater stability in the event of a sudden turn or stop.

- **COATED FRESH COMPARTMENT:** This provides clean, clear water with manway and round sight glasses to measure tank levels. Internal safety baffle included.
