

FDA APPROVED 60% ETHYL ALCOHOL BASED HAND SANITIZER

WHISK CARE®

BULK HAND SANITIZER

WHY WHISK CARE®?

BULK HAND SANITIZER

Whisk Care® is a new **FDA approved** bulk hand sanitizer. This liquid contains 60% ethyl alcohol, an effective germicide that evaporates leaving hands sanitized and feeling fresh. With a balanced formula to **kill bacteria yet gentle to the skin**, Whisk Care® is an ideal solution to refill empty dispenser containers and keep your portable sanitation equipment in the field stocked with a high-quality sanitizer. Available in 55-gallon drums and 275-gallon totes.

Whisk Care® can be used in and around food processing areas, health care and hospital facilities, and any location requiring a waterless sanitizing solution. When applied onto the hands and gently rubbed over the skin, it greatly reduces the number of microorganisms that cause infection and illness including, but not limited to, the flu and **COVID-19**.

PRODUCT DETAILS

WHISK CARE®

For use when soap and water are not available

Contains 60% ethyl alcohol, for use on skin

Bulk solution can be used to refill empty soap/sanitizer bags

Note this product is considered hazmat.

GOATTHROAT PUMP

Pressurize container in a few strokes of the plunger

Adjustable flow rate up to 4.5 gallons per minute

One-touch flow control dispenses liquids at a controlled rate

WHY GOATTHROAT PUMP?

Constructed of 100% non-reactive polypropylene, GoatThroat pumps are engineered for maximum safety and durability and designed to handle almost any liquid.

GoatThroat pumps work by pressurizing a container to dispense liquids. **Installs in seconds** to quickly move between containers. Siphon tubes are adjustable from 12 to 36 inches and the pump can be used on containers with either externally or internally threaded neck openings allowing it to **fit most containers**.
