

AGWASH

The AgWash™ upright handwash station mounts externally to all portable restrooms to comply with GAP (Good Agricultural Practices) open air requirements. It also exceeds GAP's minimum tank requirement by holding 17 gallons of water and is equipped with a soap and single use towel dispenser. The AgWash™ operates by pressing on a recessed foot pump and provides approximately 330 washes.

PRO-22

This rugged internal hand wash station requires the removal of the portable restroom urinal but gives the user 22-gallons of freshwater capacity. In situations requiring a fresh water flushing system, the Pro-22 serves as the unit of choice for both hand washing and as the freshwater reservoir for the flushing waste tank.
