Why?
Increase your rental business with specially built holding tanks from Satellite | PolyPortables. In addition to adding immediate profits to your business, these strong, impact-resistant polyethylene tanks will provide many years of dependable service. Satellite | PolyPortables’s holding tanks are designed to stack higher, resist cracking and decrease wear-through from sliding and dragging. Fittings in the 300 gallon tank are molded in, not spin-welded, for greater strength. And all ports are recessed to guard against breakage.

Specs 300gal.

Height 18” (460 mm)
Width 47” (1190 mm)
Length 88.5” (2250 mm)
Fresh Water 300 gal (1135.62L)
Color Black
Weight 180 lbs. (81.65 kg)

The 300 gallon tank uses 3” Fernco style couplings at any of eight recessed port locations. It has three locations for optional 10” man-ways. The indented sides of this tank allow it to sit between and over the wheel wells of a standard pickup bed.

The 250 gallon tank uses 3” PVC spigot assemblies which can be installed at any of 10 recessed locations. It has two locations for optional 10” man-ways. The width of this tank allows it to sit between the wheel wells of a standard pickup. The tank kit comes with two spigot assemblies.

Satellite | PolyPortables’ 300-gallon rotationally molded polyethylene holding tank works well in many applications. The low profile tank has dimensions of: 6’ x 3’, 11 ½” x 18”.

Fit Axxis & Vantage
Four 3” clean out ports are typically installed on each tank, but custom tanks with as few as two ports may be produced. A unised grommet and threaded PVC connector are inserted in each port. Each tank weighs 100 lbs.

With increasing regulations for waste tanks and external storage tanks, Satellite | PolyPortables has developed a 250-gallon Holding Tank Containment System designed to prevent contamination due to failure or overflow. Direct port connections allow the Service Technician to service the tank without removing the lid.

Durable trays to catch wash down. Built strong for continual use, these containment trays have a thickened base to hold their shape, last longer and fit all standard size restroom bases.
