

HIGH CAPACITY, 5-SERIES CHASSIS

MAL 1175

Aluminum Cabinet Driver Side
Lowered Workstation
Graywater Dump Valve
Freshwater Hose

775 GALLON WASTE / 400 GALLON FRESH

The MAL1175 is designed for routes that require high levels of maneuverability and a large number of daily services. Lightweight 5454 aluminum construction combined with a 5-series chassis gives this route truck all the maneuverability of a pick-up with the capacity of a large service truck. Dual low-profile cabinets provide plenty of storage, and the lowered workstation provides an efficient ergonomic service area even for smaller stature drivers. A full range of vacuum and washdown systems can be custom-tailored to fit your specific application.

- **LIGHTWEIGHT ALUMINUM UNIT HAULER:** This feature provides safe and secure points for transporting standard portable toilets, and the aluminum construction reduces effort for loading and unloading.

SAME FOOTPRINT, LARGER PAYLOAD

MD 1250

Stainless Steel Cabinet Driver Side (Bolt-On)
Lowered Workstation Driver Side
Freshwater Basket

850 GALLON WASTE / 400 GALLON FRESH

The MD1250 tank is a medium-sized vehicle, able to maneuver in tighter spaces. The 850 gallon waste/400 gallon fresh tank has the capacity to handle most routes. Designed with the driver in mind, it comes with a lowered work station to make servicing a breeze, even for a smaller stature driver.

If you're in the market for a new pump truck, the new F-600 chassis might be the configuration for you! The F-600's heavier GVWR allows Satellite to put a 1250 gallon tank on it, while maintaining the same footprint as its counterpart the F-550.

- **GALVANIZED STEEL UNIT HAULER:** This feature provides safe and secure points for transporting standard portable toilets, reducing effort for loading and unloading.
