

DEMANDING, HIGH CAPACITY ROUTES

MAL 2150

Aluminum Cabinet Driver Side
Lowered Workstation Driver Side
Freshwater Hose

1600 GALLON WASTE / 550 GALLON FRESH

The MAL 2150 is designed specifically for demanding, high-capacity routes. Lightweight ASTM 5454 aluminum construction combined with a 25,999 GVW or heavier chassis gives the 2150 an incredible 1600 gallon waste capacity and 550 gallons of freshwater. Large dual cabinets provide plenty of storage, and the lowered workstation provides an efficient ergonomic service area even for smaller stature drivers. A full range of vacuum and washdown systems can be custom tailored to fit your specific application.

- **LIGHTWEIGHT ALUMINUM UNIT HAULER:** This feature provides safe and secure points for transporting standard portable toilets, and the aluminum construction reduces effort for loading and unloading.

CLIMATE CONTROLLED SERVICE AREA

HANDWASH TRUCK

Climate Control System
Access Ports

900 GALLON WASTE / 900 GALLON FRESH

Satellite's Handwash Truck is ideal for routes that require servicing multiple handwash sinks. Dual 900 gallon tanks gives enough graywater space and freshwater to service 40 Tag 4 handwash sinks (22 gallon capacity). Service hatches on both sides of the truck allow for quick access to hoses and pumps. The temperature controlled box assures your fresh and graywater tanks won't freeze in the coldest of climates.

- **CLIMATE CONTROL SYSTEM:** Esbar Echo 5 Diesel powered climate control system maintains a consistent temperature in the service area to prevent fresh and graywater from freezing.
- **ACCESS PORTS:** Provide quick and easy access to tanks, switches, pumps and hoses; allowing for quick servicing.
