455 GALLON WASTE / 245 GALLON FRESH

Satellite Vacuum Trucks now offers the perfect P&D truck for pulling trailers. Our short-chassis P&D 700 is ideal for positioning trailers quickly. Its tight turning radius and ergonomic design allows for clear view of the trailer while backing up. Making it easy to spot obstacles that can be obstructed when towing behind standard service trucks.

625 GALLON WASTE / 275 GALLON FRESH

If you're looking for a truck with that CAN-DO Attitude, Satellite Vacuum Trucks has a line of P&D trucks custom built just for you! Versatility is what the P&D line-up is all about. Each truck allows you to haul more units and pull a trailer, while having the tank capacity to service your daily route. If you're only going to have one truck, make it a P&D truck.

■ **1/4 TANK HEAD:** Ultimate in tank strength, longevity, ease of repair and zinc anodes to help reduce corrosion.

■ **LIFT-GATE:** Your choice of a solid or grated lift-gate; solid lift-gates come in aluminum or steel.
