

TUFWAY

A unique combination of durability and comfort is why operators and end users have made Tufway the most used restroom in the world.

By design, the Tufway interior is built for user comfort. It has a spacious, well ventilated interior to reduce odors due to simple, yet important features. A combination of floor and molded-in wall vents facilitate continuous air flow. The urinal drains down the vent pipe, which prevents unwanted tank odors from venting back into the cabana. The seat is positioned at the furthest point from the urinal, away from odor and user's direct sight. There is also a convenient door hook to hang a purse or jacket. Together, these features produce a more comfortable, pleasant experience for the end user.

MAXIM 3000

The most outstanding features of the Maxim 3000™ are its ultra-smooth walls and spacious interior. With no ledges to collect dust, debris or waste, the Maxim 3000 can maintain a clean appearance long after a service call. Inside, the rounded corners create more open space, and a uniquely contoured tank provides end-users a more comfortable sitting position. Along with its beautiful appearance, the Maxim 3000 is also incredibly strong. By utilizing industry leading technology to create twin-panel walls and a blow molded front, the cabana is almost indestructible. The cabana is also strengthened by interlocking corners, a fitted base and an overlapping roof design.
