

SENATOR

Full-service, fully ADA-compliant restroom

The Senator is the ideal choice to use when full-service, full-compliance portable restrooms are required. Under the Americans with Disabilities Act (ADA) guidelines, the T-turn option requires less space than a full-turn radius that resulted in the larger, clumsier ADA-compliant units of the past. The Senator is easier to transport and place than any of its predecessors.

Features Include:

- ½" thick polyethylene extrusion floor provides maximum rigidity and near ground-level access
- 40-gallon waste tank
- Toilet seat and cover
- Three-roll toilet paper holder with rod and padlock
- Heavy-duty aluminum handrails, like those found in many plumbed restrooms
- Pneumatic door closer, which is balanced by a heavy-duty cable spring for comfortable, consistent, and predictable access
- High molecular-weight material with extra UV protection ensures that your units will continue to look new through years of work

Specifications	U.S. Standard	Metric
Length	64"	1.63 m
Width	77"	1.95 m
Height	92"	2.34 m
Weight	290 lbs	131.54 kg
